FOREWORD

This is the thirteenth Crime and Justice Annual Report prepared by the Division of Criminal Justice Services pursuant to Sections 837, 837-a, and 837-b of the Executive Law.

The Division appreciates the cooperation and support of the nearly 600 police departments, sheriffs' offices and specialized police agencies that provide offense and arrest data for the report. We also wish to express our gratitude to District Attorney and Special Prosecutor offices throughout the State for their continued cooperation and assistance in providing data on the processing of felons. The Division is also indebted to the Superintendent of the Division of State Police, the Chairman of the Board of Parole, the Chairman of the Commission of Correction, the Commissioner of Correctional Services, the State Administrator of the Courts, the Chairman of the Crime Victims Board, the Director of the Division for Youth, and the Director of Probation and Correctional Alternatives for the data provided by their respective agencies.

The contributions of all involved in the preparation of this report permit the Division to provide a clear picture of the nature of crime and justice issues in New York State. Without the concerted and dedicated efforts of the people who serve in the many local and State agencies which comprise our criminal justice system, the publication of this report would not be possible. It is these efforts which are documented in this Crime and Justice Annual Report.

INTRODUCTION

The New York State Division of Criminal Justice Services was assigned the responsibility for the collection of data concerning crimes and arrests in New York State, effective January 1975, pursuant to Sections 837, 837-a and 837-b of the Executive Law. In assuming that responsibility, the Division was also committed to providing relevant data to the National Uniform Crime Reporting Program administered by the Federal Bureau of Investigation and to disseminating this information to the New York State criminal justice community.

This publication is the thirteenth annual report produced in discharge of that responsibility.

Uniform Crime Reports submitted monthly by police agencies in New York State are the basis for much of the material contained in this report. These reports include information on Part I Offenses, Part II Offenses, location and time of the Offense, value of property stolen, Part I Arrests, Part II Arrests, Law Enforcement Officers Killed or Assaulted and Number of Law Enforcement Employees.

- In 1987, all 586 enforcement agencies participated in the Uniform Crime Reporting Program and agencies with multi-county jurisdictions reported separately of each county within their jurisdiction.
- Police agencies also submit supplementary reports on homicide and arson offenses. These detailed reports allow for a more in-depth analysis of these serious crimes.

In addition to Uniform Crime Reporting data contained in this report, we have provided data on felony arrests, felony drug arrests, and felony indictments and dispositions.

- The arrest material is derived from the Computerized Criminal History (CCH), which is based on the arrest fingerprint cards submitted to the Division of Criminal Justice Services in compliance with Section 160.20 of the Criminal Procedure Law. Adult felony and misdemeanor arrests are presented for each county from 1982 through 1987.

The felony indictment and disposition material is reported by District Attorneys and Special Prosecutors throughout the State pursuant to Section 837-a of the Executive Law. This material includes data on felony indictments, felony drug indictments, felony dispositions and median time from indictment through disposition.

- Information from other criminal justice agencies is included in this report to present, in one volume, as much information as possible about the criminal justice system.

Agencies that have submitted data and are included in this report are:

Office of Court Administration
Division of Probation & Correctional Alternatives
Department of Correctional Services
Commission of Correction
Division of Parole
Division for Youth
Crime Victims Board

For many reasons, not all offenses come to the attention of the police. Victims may feel too embarrassed to report a crime or that the loss sustained was too small to report or believe that there is nothing the police can do. Victimization studies have confirmed that many offenses are never reported.

When an offense is cleared, it is usually done by one or more arrests. However, there are exceptional circumstances when an offense may be cleared without an arrest. Exceptional clearances result when the police know who and where the offender is and have enough evidence to support an arrest, but are prevented from doing so because of some reason outside of their control.

The UCR data included in this report are divided into seven main segments:

PART I OFFENSES

1. Criminal Homicide
    a. Murder and Non-negligent Manslaughter
    *b. Negligent Manslaughter
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny
7. Motor Vehicle Theft

---

*All of the above, with the exception of 1-b, Negligent Manslaughter comprise the "Crime Index," which is used to measure the relative extent of crime nationwide and to show trends in crime

This report also provides greater detail regarding the following aspects of Part I Offenses:

a. Type of Weapon/Force Used
b. Type of Location in which the Crime was Committed
c. Number of Offenses Cleared
d. Type and Amount of Property Stolen and Recovered

PART II OFFENSES

8. Arson (Commercial, Residential or Motor Vehicle)
9. Kidnaping
10. Controlled Substance Sale/Manufacture - Opium, Cocaine, Derivatives, Marijuana, Synthetic Narcotics and Other Dangerous Drugs
11. Dangerous Weapons

14. Extortion
15. Forgery and Counterfeiting

The arrest reports reflect the number of persons arrested for Part I and Part II Offenses, as described above.

AGE SEX, RACE AND ETHNIC ORIGINS OF PERSONS ARRESTED

1. Persons Under 16 Years of Age (Juvenile)
2. Persons 16 Years of Age and Over (Adults)

- Note: The FBI/UCR Program treats persons under 18 as juveniles, and requires that they be so reported. This report, however, is compiled in accordance with New York State Law which classifies juveniles as those persons under 16 and adults as those 16 and over.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Statistics are provided on the number of New York State Law Enforcement Officers Killed or Assaulted. A description of the conditions under which the officers were assaulted is also provided.

HOMICIDE ANALYSIS

- Detail on homicides committed in New York State, including characteristics of victims and circumstances under which such homicides occurred, are provided.

ARSON ANALYSIS

- This report provides additional detail concerning arson. The analysis describes the types of structures involved, distribution of activity and clearance rates.

DOMESTIC VIOLENCE

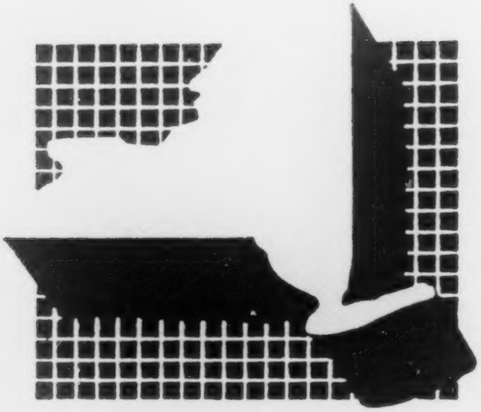
- Statistics are presented relating to the incidence of Domestic Violence by geographic locations in New York State, New York City and Upstate Counties.

To combat crime effectively, it must be known when and where crime is occurring. The county, as a crime location, is not sufficiently definitive. Therefore, we have instituted direct reporting to the State program from every Police Chief and Sheriff in New York State in accordance with State Law.

It is important to note that without the collaboration of the Law Enforcement Agencies and cooperation of the criminal justice agencies, this Report would not be possible.

POPULATION DATA SOURCE

Population data used for calculating crime rates for the 1987 Crime And Justice Annual Report are based on 1980 census data and updates provided by the United States Department of Commerce - Bureau of Census and the New York State Department of Commerce.



THE PROBLEM

OFFENSES - PART I AND PART II
HOMICIDE

DOMESTIC VIOLENCE

OFFENSES

For over 50 years criminal offenses have been used as a crime index to assess the level of criminal activity within an area. The index offenses were selected because of their seriousness or frequency of occurrence.

The index offenses are murder & non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft.

Comparisons of crime rates between police agencies or counties should be made with extreme caution. The crime rates published in this report are based solely on offenses reported or known to the police and the size of the resident population. Additional factors which may influence crime rates are density of population, geographic location, social attitudes, economic conditions, number of law enforcement officers, seasonal and transient populations, and rural or urban environments.

INDEX OFFENSES

Index offenses increased 3.6 percent in New York State from 1986 to 1987.

VIOLENT OFFENSES

Violent offenses (murder, forcible rape, robbery and aggravated assault) showed an increase of 2.6 percent from 1986 to 1987.

ARSON

This is the ninth analysis of arsons in New York State to be presented in the Crime and Justice Annual Report. The data for these analyses are derived from a supplementary arson data collection program begun in 1979 under the Uniform Crime Reporting (UCR) System.

- Arson is defined by the Uniform Crime Reporting Program as a "willful or malicious burning, or attempted burning, of a dwelling house, public building, motor vehicle, aircraft, or personal property of another." Only fires determined through investigation to have been willfully or maliciously set are classified as arsons.

- A "cleared"[1] arson incident is defined as an offense for which a perpetrator has been taken into custody or is otherwise known by police to have committed the crime, but for reasons outside police control cannot be taken into custody.

Arsons reported under Part II of the UCR program and shown elsewhere in this volume are reported under the "hierarchy rule," whereby an offense is counted only if it is the most serious in an incident. Under this program, an arson offense is reported regardless of whether it occurred in conjunction with a more serious offense. This analysis, therefore, shows more arson offenses than are shown for arson offenses in the UCR Part II offense presentations.

Type of property is divided into three categories:

- structural (residential, commercial, public/community, and other);
- mobile (motor vehicle and other);
- other property.

The definitions of property type are as follows:

SINGLE OCCUPANCY RESIDENTIAL

includes houses, townhouses and duplexes.

OTHER RESIDENTIAL

includes apartments, tenements, flats, hotels, motels, inns, dormitories and boarding houses.

STORAGE

includes warehouses, garages and barns.

INDUSTRIAL/MANUFACTURING

includes factories and all other manufacturing facilities.

OTHER COMMERCIAL

includes stores, restaurants and offices.

PUBLIC/COMMUNITY

includes churches, jails, schools, colleges and hospitals.

ALL OTHER STRUCTURES

includes out-buildings, monuments and structures under construction.

MOTOR VEHICLES

includes automobiles, trucks, buses, motorcycles, motor scooters, and snowmobiles.

OTHER MOBILE

includes airplanes, boats, trailers, and recreational vehicles.

OTHER PROPERTY

includes crops, timber, fences, and signs.

Estimated values of property damaged are included in the report. They are included in order to provide an estimate of the absolute minimum dollar value. Because many police departments have little or no access to dollar amounts for arson, the monetary values for many arson cases are not reported.

---

[1] The clearance rate is the ratio of clearances to the net number of arsons reported, expressed as a percent. Because a 1987 clearance does not necessarily reflect clearance of an offense reported in 1987, the clearance rate should be considered only as a general indicator of processing efficiency.

ARSON ANALYSIS
NEW YORK STATE
SUMMARY

ARSONS REPORTED

There were 11,301 arson incidents reported in New York State in 1987, a 1.0% decrease from 1986.

Structural Arsons

- Arsons of structures accounted for 65.4% of all New York State arsons. Of these 47.0% were residential arsons. Consistent with data from previous years, residential structural arsons remained the most common type of structural arson throughout the State.
- Commercial structure arsons accounted for 12.7% of all arsons in New York State. "Other Commercial" arsons, the most frequent form of commercial arson in New York State, accounted for 8.2% of the arsons statewide.
- The 731 arsons that occurred in abandoned structures accounted for 6.5% of all arsons in New York State. Residential structures were the most common form of abandoned structures to be targets for arson.

Mobile Arsons

- In this category, the 3,556 "motor vehicle" arsons reported in New York State accounted for 31.5% of all New York State arsons, while "other mobile" accounted for 1.1% of these arsons.

ARSONS CLEARED

- In 1987, 1401 arson incidents were cleared in New York State. Of these, 77.9% were structure arsons, of which 54.8% were residential and 13.7% were commercial.
- Four hundred thirty-three of the arson clearances involved persons under age 18. Persons in this age group accounted for 30.9% of the arson clearances in the state; this represents a slight decrease from 1986 when they accounted for 32.1%.

ARSON CLEARANCE RATES

- The 1987 clearance rate for all arsons in New York State was 12.4%. This relatively low clearance rate inclusive of the low clearance rates of New York City and Upstate, seems to reflect the extreme difficulty in solving a crime in which most of the physical evidence is destroyed.
- Arson clearance rates also vary by the type of property involved. In 1987 statewide clearance rates for the "public community" and "other mobile property" structural category had the highest clearance rates (21.8%), while "motor vehicle arson" had the lowest clearance rates (6.6%).

DOMESTIC VIOLENCE

1987

The Governor's Task Force on Domestic Violence was established by Executive Order #90 on May 17, 1979, to study "the traumatic effects of domestic violence and how our social and legal systems can better deal with such violence and its causes."

The Uniform Crime Reporting System (UCR) is utilized by DCJS as the data collection instrument for obtaining domestic violence data from the local law enforcement agencies. The domestic violence data reflected in this report are based on those offenses which have come to the attention of law enforcement officers, regardless of whether a formal complaint was filed or an arrest made.

For New York City, the 51,796 offenses reported in 1987 is a 35.2 percent increase over 38,315 reported in 1986, while the Upstate counties decreased 8.5 percent.

Statewide, domestic violence offenses reported increased. A total of 73,645 offenses were reported in 1987 as opposed to 62,191 reported in 1986, an increase of 18.4 percent. As in prior years, this increase is largely due to improved reporting by the law enforcement agencies across the State.

DRUG ARRESTS

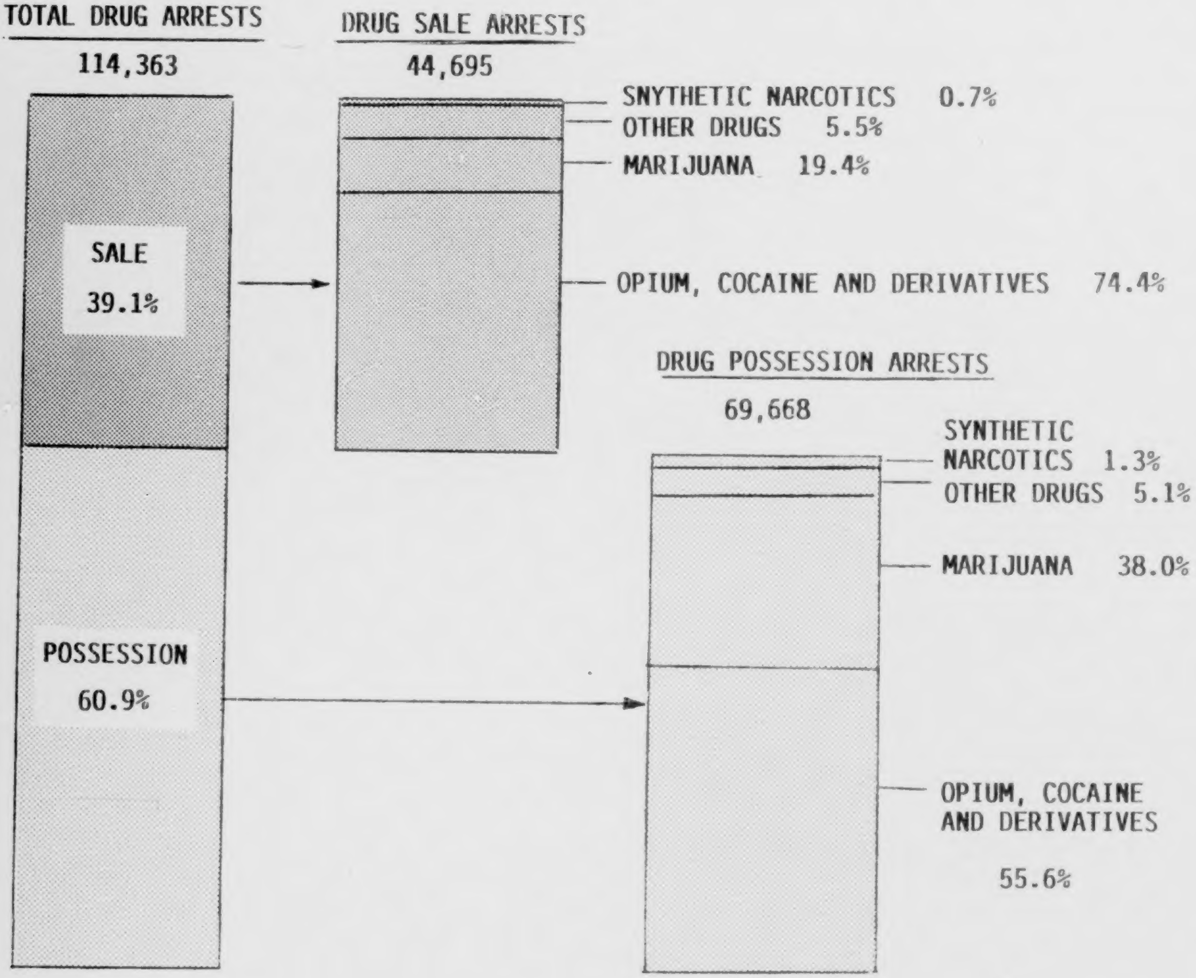
PERCENT DISTRIBUTION BY SALE AND POSSESSION

1987



INDICTMENTS AND DISPOSITIONS

The following tables present data on felony indictments[1] and dispositions for 1987 and 1986. This information is obtained from a statistical reporting system based on individual reports of each indictment and each disposition submitted by district attorneys and special prosecutors throughout the State. The unit count in this reporting system is the defendant/indictment; that is:

- When several defendants are named in one proceeding or indictment, each defendant is counted separately; and

- When one defendant is named in multiple proceedings or indictments, each indictment is counted separately.

The use of offender-based statistics and the tracking of each defendant from time of indictment until final disposition makes possible the measuring of elapsed time between various stages in processing. The median time is obtained by ranking all the values in a specific category (for example, time from indictment to disposition) and choosing the middle number - that is, the number with an equal amount of values above and below it. As a result, the median values are not influenced by very large or very small numbers which can affect averages.

It should be noted that the disposition data reported in these tables pertain to cases handled during the specified year by the superior courts. These dispositions may be for indictments in the same or previous years.

HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS IN NEW YORK STATE

Legislative enactment (Chapter 631 of the 1987 Laws of New York) requires the Division of Criminal Justice Services to collect and analyze statistical and all other information and data with respect to the number of environmental crimes and offenses violating Articles 27, 37, 40 and Titles 27 and 37 of Article 71 of Environmental Conservation Law regarding hazardous waste and waste disposal. The following is presented in satisfaction of that mandate for the year 1987.

BACKGROUND

Over the past several years the State of New York has increasingly recognized the latent danger and inherent damage that even a few violations to laws governing hazardous waste and waste disposal can entail. Several facts have surfaced as a result of identifying the problem.

- The actual number of offenses reported and offenders apprehended is small in comparison to other crimes yet the number of victims and potential victims is much greater. The Summer of 1988, with the closing of many Long Island beaches due to hazardous medical waste being washed on-shore, has demonstrated just how serious and widespread the outcome of such violations can be, affecting not only the quality of the environment but jeopardizing the health and well-being of large numbers of New Yorkers.
- The most common mode of moving hazardous materials is by highway. Improper movement can endanger citizens over an extensive path.
- There has been evidence to indicate that organized crime has become involved in the highly profitable hazardous waste and waste disposal business and with that the increased likelihood of more violations of regulations.

In an effort to protect its citizens and to curtail violations, the New York State Legislature and the Governor has enacted a number of bills.

- Ch. 612 of the Laws of 1983 resulted in an increase in penalties for violations of laws and regulations involving pesticides.

- Ch. 646 of the Laws of 1983 amended the Criminal Procedure Law to permit electronic eavesdropping in investigations relating to unlawful disposal of hazardous waste. This is perhaps the first official indicator of the State's recognition of organized crime involvement in hazardous waste and waste disposal.

- Ch. 862 of the Laws of 1984 provided funding for Enforcement Training Programs.

- Ch. 937 of the Laws of 1984 set up a reward program for information leading to the detection, arrest, and conviction of persons violating laws or regulations pertaining to the illegal handling or disposal of hazardous waste.

- Ch. 38 and 471 of the Laws of 1985 established a "Superfund" for the clean-up of hazardous waste sites.

- Ch. 511 and 512 of the Laws of 1986 presented the Environmental Quality Bond Act in which $1.2 billion could be additionally allocated for the clean-up of hazardous waste sites.

- Ch. 671 of the Laws of 1986 amended the Environmental Conservation Law in relation to substances acutely hazardous to public health, safety, or the environment; amended the Penal Law in relation to criminal liability of a corporation; amended the Criminal Procedure Law in relation to eavesdropping warrants and the statute of limitations. It increased the severity and level of the crimes related to hazardous waste disposal to a range from class B misdemeanor to class C felony. In addition, it expanded the definition of hazardous waste allowing the prosecution of criminal conduct which causes or contributes to the release to the environment of hazardous substances, not just waste.

- Ch. 672 of the Laws of 1986 included the regulation of bulk storage of not only petroleum but also of other chemicals and provided penalties for violations.

- Ch. 682 of the Laws of 1986 extended the statute of limitations for toxic torts suits by private citizens.

Legislative concern has continued in 1987.

- Ch. 489 of the Laws of 1987 established the New York State Center for Hazardous Waste Management.

- Ch. 631 of the Laws of 1987 required the Division of Criminal Justice Services to collect and analyze data related to hazardous waste and waste disposal offenses.

- Ch. 536 of the Laws of 1987 amended the Environmental Conservation Law, the Navigation Law and the Public Health Law in relation to inactive hazardous waste disposal sites, petroleum spills, and hazardous waste spills remediation.
- Ch. 827 of the Laws of 1987 provided for the planning and coordination of fire service response in advance of emergencies involving hazardous materials at which the assistance of fire departments may be required.
- Ch. 618 of the Laws of 1987 amended the Environmental Conservation Law (Article 27), in relation to establishing a policy of preferred statewide hazardous waste management practice hierarchy and a statewide hazardous waste facility siting plan.
- Ch. 504 of the Laws of 1987 authorized police officers who stop vehicles suspected of transporting hazardous materials or hazardous waste to require such vehicles to be driven to a place for inspection within five miles.
- Ch. 431 of the Laws of 1987 amended the Environmental Conservation Law and the Transportation Law in relation to the storage, treatment, disposal, and transportation of infectious waste.

ACTIVE EFFORTS TO MONITOR HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS.

In addition to legislative initiatives to attack the problems of hazardous waste and waste disposal, a variety of State agencies have become increasingly active in monitoring hazardous waste and waste disposal violations.

The State Police Hazardous Materials Unit - Comprised of sixteen uniformed State Troopers, this unit has in the past targeted all vehicles placarded as carrying hazardous materials. As of May 1987, it was given the authority to inspect any vehicle suspected of carrying hazardous materials. Specializing in inspection of highway transport of hazardous materials, the following was reported to the Division of Criminal Justice Services as 1987 activity:

NEW YORK STATE POLICE
HAZARDOUS MATERIALS UNIT REPORT
1987

15,691	vehicles stopped and cargoes ascertained.
4,482	vehicles found to be carrying hazardous materials and were inspected to determine compliance with hazardous materials and Motor Carrier Safety Regulations (28.6%).
2,166	(48.3%) of those vehicles inspected were in violation of those regulations and were issued tickets for hazardous materials violations (fourteen-f of the Transportation Law referred to in ECL 27-0305).
602	of the 4,482 vehicles inspected were ticketed for non-hazardous materials violations.

It should be noted that the category "hazardous materials" includes the subcategory "hazardous waste." Tickets issued by the State Police were primarily for violations of New York State Transportation Law which regulates the transport of hazardous materials. Some of those tickets issued included violations related to the transport of hazardous waste.

The State Police Motor Carrier Safety Assistance Program Unit further monitors the transport of hazardous materials. This unit also consists of sixteen uniformed State Troopers and, in conjunction with the Department of Transportation, has the authority to stop any truck to check for safety and transportation violations. Such inspections can include a check for hazardous materials. For the period June through December 1987 this unit submitted the following information to the Division of Criminal Justice Services:

NEW YORK STATE POLICE
MOTOR CARRIER SAFETY ASSISTANCE PROGRAM UNIT REPORT
JUNE 1987 THROUGH DECEMBER 1987

2,974	Trucks inspected.
1,598	Safety violations found of such a seriousness to result in the vehicle being removed from service.
506	Tickets issued for hazardous materials violations (15.2% of the total number of tickets issued). These were for violation of fourteen-f of the transportation law referred to in ECL 27-0305).
2,827	Tickets issued for other violations.

Tickets issued for hazardous materials violations are primarily for violations of the Transportation Law. Those tickets may include violations related to hazardous waste and waste disposal. Reliable data are not available prior to June 1987 because of a change in the reporting system.

The Environmental Protection Bureau's Environmental Crime Unit of the New York State Department of Law reported to the Division of Criminal Justice Services a total of nine hazardous waste and waste disposal cases processed in 1987. Forty-three arrest charges were levied in these nine events; 25 felony, 7 misdemeanor and 11 unknown. The number of individuals charged was 10 (58.8% of those charged) and the number of other entities (corporations, businesses, etc.) charged was 7 (41.2%).

Dispositions of these cases resulted in 3 dismissals and 11 convictions including 1 plea to ECL 71-2703, 1 conviction to ECL-2712; 1 conviction to ECL 71-2707 (corporation); 6 convictions to ECL-0914 (individual); one conviction to ECL 27-0913; and one plea to PL 175.30. Additionally, monies collected for clean-up, penalty, and fines totaled $261,250. One intermittent jail sentence was imposed consisting of weekends for one year.

The Division of Law Enforcement's Bureau of Environmental Conservation Investigations at the Department of Environmental Conservation reported the following activity for 1987 concerning hazardous waste and waste disposal violations:

There were a total of 105 different hazardous waste/waste disposal events. Twenty-one events resulted in at least one felony charge; 84 events resulted in at least one misdemeanor charge. In all, there were a total of 40 felony charges, 132 misdemeanor charges, 6 violations and 21 unknown for a total of 199 charges.

Of the total 110 violators, four were individuals (3.6%), 95 were businesses/corporations/other entities (86.4%), and 11 were unknown (10%).

The following is a breakdown by county of 1987 violators reported to Division of Criminal Justice Services by the Bureau of Environmental Conservation Investigations.

BUREAU OF ENVIRONMENTAL CONSERVATION INVESTIGATIONS

Note: The number of violators listed for Albany County includes five out-of-state entities as Albany is the location headquarters where the offenses were prosecuted.

From the arrest charges disposed $598,740.29 was collected in fines, penalties, and consent orders. (Fines indicate a criminal disposition, penalties indicate a civil disposition, and consent orders indicate an administrative disposition.) Fifty-two percent ($310,185.00) of the monies collected were from criminal convictions and 48.2% ($288,555.29) were collected from penalties and consent orders (civil and administrative dispositions). (Note: Consent orders are an administrative action on the part of Environmental Conservation. An amount is determined in accordance with the degree of harm caused by the offense. The offender agrees to pay the amount and signs a document to that effect. Monies collected via consent orders are placed in a remedial fund which is used in the cleanup of hazardous waste.)

Overall, the Bureau of Environmental Crime Investigations reported 105 events involving 199 separate charges against 110 individuals/corporations/other entitites.

The Department of Environmental Conservation's (EnCon) Division of Environmental Enforcement works closely with the EnCon Investigations unit. When Environmental Conservation receives notice of a suspected violation, the Environmental Enforcement Unit may initially respond and then subsequently call for a probe utilizing the Investigative Unit to further pursue the case. The Environmental Enforcement Unit's activities concerned with hazardous waste and waste disposal therefore would be included in the information reported by the Investigative Unit. For this reason it is not included in this report.

Division of Criminal Justice Services - The Computerized Criminal History/Offender-Based Transaction Statistics (CCH/OBTS) data system utilized by the Division of Criminal Justice Services (DCJS) is a compilation of data from police, courts, and correctional agencies and is used to track individual offenders through the criminal justice system. The total number of violations reported from the information contained in this file is considerably lower than the total number reported by EnCon Investigations (currently considered the most complete data source on the subject). The reasons are several. In order to be included in the DCJS data base, the charge must have been for a fingerprintable offense as designated by State law. Not all EnCon Hazardous Waste/waste disposal violations are fingerprintable. Secondly, the charge must have been levied against a person as opposed to a corporation or other entity. In a review of the hazardous waste violations data submitted by the EnCon Investigations Unit it was determined that only 4.0% of the known violators charged were individuals. Lastly, the CCH/OBTS data system requires that the fingerprintable EnCon hazardous waste/waste disposal charge must be the most serious charge levied ('top-charge') in an arrest or disposition event in order to be included in a DCJS count.

The information available from the Division's CCH/OBTS file includes a regional breakdown of the number of violations.

For all of New York State in 1987 there was a decrease in the number of arrests in which a hazardous waste violation was the most serious charge (38% overall). Of those arrested for a felony, 50% resulted in a conviction to some charge in both 1986 and in 1987. Convictions specifically for EnCon hazardous waste charges for disposition year 1987 include 1 felony conviction, 8 misdemeanor convictions and 5 convictions for lesser hazardous waste charges.

FUTURE DIRECTION

To further discourage offenders, monitor violations, encourage cleanup, and enhance enforcement of the Environmental Conservation Laws concerning hazardous waste and waste disposal in 1988, the following bills have been recently enacted.

- Ch. 301 of the Laws of 1988 amended the Environmental Conservation Law in relation to the utilization of stand-by contracts to clean-up actual or suspected spills of hazardous substances or wastes and for remediation activities of inactive hazardous waste sites.
- Ch. 428 of the Laws of 1988 amended the Environmental Conservation Law in relation to definitions of disposal and release in relation to the definition of "abandonment" to facilitate prosecution of persons responsible for polluting the environment.

In addition, several bills are on the floor waiting debate and approval.

SUMMARY

No single data source reveals the complete picture of Environmental Conservation Law hazardous waste and waste disposal violations. The primary reason for this is that each individual agency focuses on particular aspects of the problem unique to that agency be it the transport of hazardous materials, the court processing of offenders, arrest processing or the clean-up, prevention or investigation of violations.

The present diverse information-gathering and reporting systems being implemented by these agencies along with the possibility of data overlap prohibit combining the reports in order to arrive at a single, accurate accounting of violations. Any attempt to link these disparate systems could result in misinterpretation of the data and the drawing of inaccurate conclusions. For this reason, such efforts have not been attempted here. It is recommended that each data source be reviewed independently of any other.

The information presented in this report does provide a general overview of the number of hazardous waste and waste disposal violations that were monitored by specific state agencies and that occurred in New York State during the year 1987.

2.1 INTRODUCTION

There were 3,607,383 filings in the trial courts of the Unified Court System in 1987.[1,2] These included 896,000 parking tickets;[3] of the 2,711,383 remaining cases, 41% (1,113,752) were filed in criminal courts, 38% (1,021,218) in civil courts, 16% (439,130) in the Family Courts, and 5% (121,197) in the Surrogates' Courts.

Dispositions in the trial courts during 1987 totaled 3,539,969. Excluding parking tickets, there were 2,643,969 dispositions as follows: criminal courts--41%, civil courts--36%, Family Courts--16%, Surrogates' Courts--7%.

Table 2 shows a breakdown of filings and dispositions in the trial courts by type of court.

[1] All data in this chapter are from the Caseload Activity Reporting System of the Unified Court System. Courts report data to the Office of Court Administration pursuant to the Rules of the Chief Administrator of the Courts (22 NYCRR 115).

[2] Excludes Town and Village Courts. An estimated additional 2.5 million matters were filed and disposed in these courts in 1987 (data not yet available).

[3] Parking ticket caseload activity was measured for the first time in 1985.

2.2 CRIMINAL CASES

Criminal cases are processed in the trial courts as follows: Felony indictments and superior court informations are processed in the Criminal Term of the Supreme Court in New York City and in the County Courts outside of New York City. In several counties outside of New York City, a portion of the felony caseload is processed in the Supreme Court as well. The courts of limited jurisdiction--Criminal Court of the City of New York; District Courts of Nassau and Suffolk; and City, Town, and Village Courts outside of New York City--have original jurisdiction over felonies and complete jurisdiction over misdemeanors, violations, and infractions.

1. Criminal Term of Supreme and County Courts

Filings: Statewide, 62,940 felony cases were filed in Supreme and County Courts during 1987.[4] This level of filings was an increase of 12% over the 56,356 filings in 1986. Sixty-six percent (41,664) of the 1987 filings occurred in New York City.

Table 2-2 shows a breakdown of 1987 filings by judicial district.

Table 2-3 focuses on individual counties, ranking the seventeen counties with 400 or more felony-case filings. These seventeen counties accounted for 90% of all filings. New York County had the highest volume, with 13,485 filings. Kings, Bronx, and Queens followed.

---

[4] "Cases" are a count of "defendant-indictments," i.e., each defendant on each indictment counts as one case.

Dispositions: Statewide, 62,630 cases reached disposition (guilty plea, trial verdict, dismissal, or other) in 1987, a thirteen percent increase from the 55,497 dispositions in 1986. Sixty-six percent (41,085) of the statewide dispositions were in New York City.

Table 2-2 shows 1987 dispositions by judicial district.

Table 2-3 shows that seventeen counties with over 400 dispositions accounted for 90% of all felony-case dispositions. Twelve counties which commenced over 40 trials accounted for 90% of felony trials commenced statewide in 1987. Of the total of 5,096 felony trials commenced, 4,230 (83%) were jury trials.

Figure 2-1 shows felony-case dispositions by type. There were 51,611 guilty pleas (82%), 5,328 dismissals (9%), 4,632 trial verdicts (7%), and 1,059 other dispositions (2%).

2. Criminal Courts of Limited Jurisdiction

Criminal Court of the City of New York: There were 324,597 arrest case dockets filed in the Criminal Court of the City of New York in 1987. There were 306,183 dispositions in this period. These figures were increases of 8% in filings and 11% in dispositions compared with 1986.

Of the dispositions, 46% were by guilty plea, 32% by dismissal, 15% by referral to grand jury or transfers to Supreme Court for waiver of indictment, four-tenths of one percent by verdict, and 7% other dispositions.

There were 102,183 summonses added to the calendar. (In addition, 170,258 summonses were filed to which defendants did not respond.) There were 99,916 dispositions.

City and District Courts outside New York City: Criminal case intake in the City Courts and the Nassau and Suffolk District Courts was 230,400 in 1987. The courts reported 214,858 dispositions. Of the dispositions, 56% were by guilty plea, 33% by dismissal, 6% by referral to grand jury, 2% by trial verdict, and 3% by other means.

There were 254,606 noncriminal (violations and infractions) Uniform Traffic Tickets disposed by judges in these courts. In addition, the clerks' offices disposed of 142,500 tickets. These consisted primarily of fines paid (by personal appearance and mail) and bail forfeitures. In cities without Parking Violations Bureaus, the City and District Courts process parking tickets. There were 896,000 dispositions.

STATE OF NEW YORK
EXECUTIVE DEPARTMENT
DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES

The New York State Division of Probation and Correctional Alternatives collects data on probation service delivery from local probation departments on a monthly basis and compiles it for annual totals. The following statistics for adult supervision were derived from the Probation Registrant System and for all other services, from the monthly reports of criminal and family workload in probation departments. Services other than adult supervision include: intake for family court, investigations conducted for family and criminal court, and predisposition supervision.

HIGHLIGHTS OF 1987
BASED ON
REPORTS OF "WORKLOAD" IN PROBATION DEPARTMENTS

INTAKE SERVICES (DPCA 30 Item 2b)

Cases opened for intake services decreased from 138,427 in 1986 to 130,830 in 1987. The 23,937 cases opened in New York City represents 18% of the statewide total, compared to 20% in 1986. (Chart 1)

INVESTIGATIONS

Probation departments conducted 99,910 regular investigations (presentence, pre-plea, JD, and PINS), and 61,828 other investigations. This 161,738 total is a 6% increase over the 152,095 investigations conducted in 1986. (Table 1)

PRE-DISPOSITION SERVICE

There were 18,653 cases received for supervision prior to court disposition. This is a 4% increase over the 17,965 received in 1986. (Chart 2)

PROBATION SUPERVISION

At the end of 1987 there were 119,835 cases under supervision, an increase of 4% over the 114,766 being supervised on 12/31/86. (Table 2, Chart 3)

During 1987, there were 48,522 probation supervision cases received. This is a 0% increase over 1986 when 48,188 cases were received. (Table 2, Chart 4)

[1] This figure results from adding the PRS Cases Supervised on 12/31/86 (according to data received as of 8/13/87) to Family Court Cases Carried from Previous Year (DPCA-30, Item 12).

[2] For all years prior to 1986, in order to eliminate duplicate counting of inter and intra-state transfer cases, probationers transferred out were deducted from those placed on probation. For 1987, PRS Cases Sentenced During 1987 (according to data received as of 4/1/88) were added to 1987 Family Court Cases Received (DPCA-30, Item 13).

[3] For adult supervision cases, the categories include cases closed by early discharge, maximum expiration, death, technical violation and new conviction. For Family Court Cases, the data show total passed from supervision (DPCA-30, Item 15e).

[4] Percentage represents increase (decrease) from previous year.

Under Custody Population (Table 1 and Chart 1)

The number of inmates under custody declined from 12,525 at the end of calendar year 1971 to a low of 12,444 at the close of 1972. This decline began in 1964 and continued over a nine year period. Contributing to this decline was the Baxtrom decision which led to the release from Department custody of all criminally insane inmates held beyond their maximum expiration dates along with related decisions which ended the practice of holding under custody dangerously mentally incapacitated persons for long periods of time. These decisions, coupled with other factors including a revised Penal Law which became effective in September of 1967, changes in sentencing procedures, and the development of major institutional programs for drug addicts by the state's drug control agency, resulted in an annual net loss in the under custody population which continued through 1971. This situation was reversed in 1973 when admissions exceeded releases for the first time since 1963. This rise in the under custody population has continued every year through 1987, when the under custody population rose to 40,842, an increase of 228.2 percent or 28,398 over a sixteen year period. Reasons for this increase are discussed in the section on admissions.

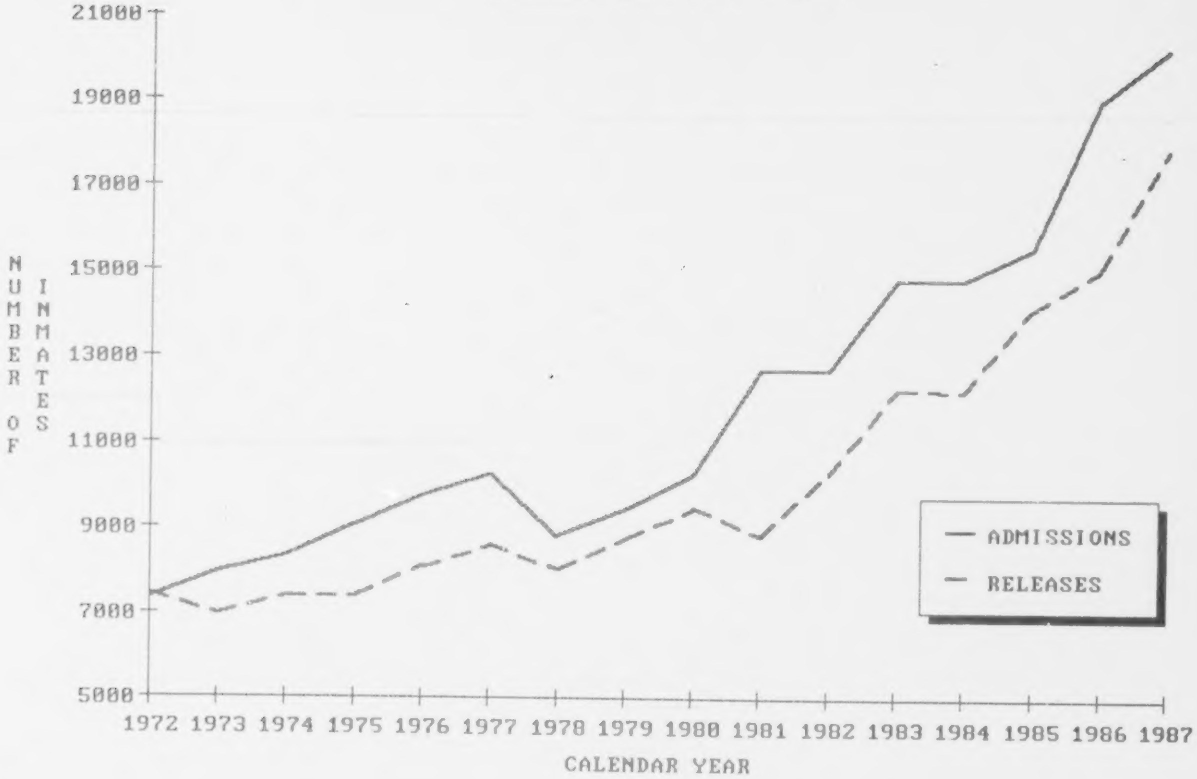
Admissions to Department Custody (Table 1 and Chart 2)

Admissions registered a steady rise from an annual total of 7,242 in 1971 to 10,272 in 1977. The number of admissions fell to 8,837 in 1978 but resumed an upward trend in 1979 reaching an all time high of 20,319 in 1987. A surge in the number of 1976 and 1977 admissions reflected efforts by the Office of Court Administration to reduce a large backlog of felony cases pending before the Supreme Court which resulted in a temporary acceleration of the already high and rising rate of court commitments. Similar efforts in subsequent years have contributed to a continued rise in commitments which reached an all time high of 15,705 in 1987. Court commitments account for eight of ten admissions and trends in this category largely shape the flow of offenders into State prisons. Court commitments declined to a low of 4,250 in 1970. From this 1970 low, commitments have risen to the high of 1987, an increase of 11,455 or 270 percent. Beginning in 1971, felony commitments rose rapidly, offsetting declines in other types of commitments. Contributing to this trend has been a rise in felony arrests, indictments and court dispositions and an increasing tendency of the courts to commit convicted felons to state correctional facilities. Several more stringent laws enacted in 1973 and subsequent years have added to this increase in commitments. These include the Second Felony Offender Law, which has imposed mandatory indeterminate sentences on such offenders; a drug law which has imposed harsher penalties on drug offenders; and the law imposing mandatory indeterminate terms for all Class B felonies and for certain Class C and D felonies. The trend toward a high level of court commitments has continued through 1986 reflecting also the impact of the violent felony offender legislation which became effective in September 1978.

CHART 2
ADMISSIONS TO AND RELEASES FROM DOCS FACILITIES
CALENDAR YEAR 1972 - 1987



Releases from Department Custody (Table 1 and Chart 2)

Releases from DOCS custody remained relatively stable during the five year period, 1971-1975, averaging 7,285 annually. In 1976 a sharp rise in releases is observed, up 10% over the previous year. This substantial rise reflected a growth in the pool of parole eligible inmates in the burgeoning inmate population who were subsequently released to parole supervision. The year 1978 saw a temporary drop in releases which reflected longer minimum periods of incarceration being set by the Board of Parole and a modest shift toward longer sentences on the part of the courts, both of which lessened the number of paroles. Releases for 1979 and 1980 resumed an upward trend, including high volumes of parole and conditional releases. A decline in 1981 releases reflected both sentencing changes under the Violent Felony Offender Law as well as a change in the manner in which the minimum period of incarceration was determined for a considerable portion of the inmate population. Releases resumed their upward trend in 1982 and 1983, leveling off in 1984, and reaching an all time high of 17,926 in 1987.

Reason for Commitment (See Table 2)

Of 15,705 offenders committed during 1987 to custody of the Department of Correctional Services, 7,109 or 45.3% were sentenced as second felony offenders while 142 or 0.9% were sentenced as persistent felony offenders. A small portion of the commitments, 251 or 1.6% were sentenced as Youthful Offenders.

The majority (6,939 or 44.2%) of the 1987 commitments had been convicted of crimes designated in the penal law as Violent Felony Offenses (VFO). Of these VFO commitments, 2,687 (38.7%) had been sentenced as second felony offenders. An additional 126 (1.8%) of these VFO commitments had been sentenced as persistent offenders. Commitments for robbery led the VFO group followed by crimes of burglary, homicide, dangerous weapons, sex crimes, and assault.

There were 847 offenders committed for other felonies involving violence or coercion. Commitments for robbery led this group also followed by crimes of homicide, assault and sex crimes. Over half (54.8%) of this group had been sentenced as second felony offenders with an additional 0.2% (2) sentenced as persistent felons.

The remaining 7,668 offenders had been committed for various property, drug and other crimes. Drug felonies was the largest category in this group with 5,106 commitments (32.5% of all commitments). The proportion of second felony offenders among drug commitments was 45.2% (2,306) while the proportion of second felony offenders among the property/other crimes was 64.4% (1,651). Next to drugs, burglary was the largest crime in this group followed by grand larceny, stolen property, and forgery.

STATE OF NEW YORK • EXECUTIVE DEPARTMENT

STATE COMMISSION OF CORRECTION

The State Commission of Correction oversees all correctional facilities in New York State. Its goals are: to ensure humane treatment of inmates; to improve operations and programs in correctional facilities; and to improve its own functions as a corrections overseer. In light of these goals, the Commission investigates problems and issues in correctional practices, establishing and enforcing standards for safe, sanitary and orderly settings for both staff and inmates in the State of New York (State, counties, towns, villages, New York City, and all other cities). It offers technical assistance to administrators and training services for personnel. The Commission approves and, when appropriate, assists in the development of new construction. It also serves as a central repository for information on the correctional system in New York State.

Three Commissioners head the agency: A Chairperson and two others who chair the Citizens' Policy and Complaint Review Council and the Medical Review Board, respectively. The Citizens' Council monitors grievances in county facilities and provides an avenue for citizen participation in development of Commission policies and programs. The Medical Review board monitors medical and psychiatric services in correctional facilities and investigates circumstances surrounding inmate deaths.

The correctional system in New York State is comprised of three major correctional jurisdictions including the Department of Correctional Services, the New York City Department of Correction, and county jails/penitentiaries. The Department of Correctional Services (DOCS) operates all state correctional facilities. The New York City Department of Correction (NYCDOC) operates all county correctional facilities within the City of New York; and thirdly, county jails and penitentiaries are operated by individual county sheriffs/corrections departments.

In addition, the Commission of Correction monitors and serves as a central repository of data for the New York City Police Department (operating New York City Precinct Lockups) and all other City, Town and Village Police Department Lockups outside the City of New York.

INMATE POPULATIONS

The Commission began collecting inmate population data by conducting semi-annual telephone surveys to county jails and penitentiaries in 1981. Currently, county correctional facilities report inmate populations via the on-line Jails Daily Population Reporting System on a daily basis.

Inmate population counts for both the New York City Department of Correction and the State Department of Correctional Services are obtained from Daily Population Reports produced by both departments.

Table I presents the inmate population across the three major correctional jurisdictions from 1981-1987.

TOTAL ADMISSIONS AND SENTENCED ADMISSIONS FOR COUNTY JAILS AND PENITENTIARIES

County jail and penitentiary admission data are derived from the Statewide Compilation of Data from Sheriffs' Annual Reports for the years 1977-1986. The Commission of Correction compiles this annual report from individual Sheriff and Penitentiary reports submitted by all county correctional facilities. The 1987 compilation is not yet finalized, therefore only preliminary data are presented for county jails.

The following tables (Tables II-VII) represent total admissions reported by county correctional facilities. Total admissions include all sentenced and unsentenced admissions. Chart I illustrates total admissions by the most serious reason for commitment (felony, misdemeanor, etc.) Tables VIII-X represent sentenced admission data.

TOTAL ADMISSIONS TO CITY, TOWN AND VILLAGE LOCKUPS

Table XVI indicates the total number of admissions reported by police department lockups across New York State 1977-1987. The Commission compiles these data from individual record of detention reports received from police department lockups annually.

Beginning in 1985, the Commission requested a one day population figure from police departments. This one day population represents the number of admissions during the 24 hour period of 12/31. Table XVII reports these December 31 population figures.

The number of release interviews conducted by the Parole Board increased from 19,149 in 1985-1986 to 19,873 in 1986-1987, a 4% increase.

The Parole Board granted release to 22,599 inmates during the last two fiscal years with an increase of 6% in 1986-87. Release decisions were granted to 11,398 initial applicants during the two year period (inmates who became eligible for parole release after serving their minimum sentence from April 1, 1985 through March 31, 1987). Reappearance interviews resulted in 8,339 release decisions for inmates who were previously eligible for parole release, but were denied release and became eligible again. Re-release interviews for violators resulted in 2,847 inmates released to the community. Other release interviews resulted in 15 inmates being granted parole. The decisions rendered at the various release interviews are summarized in Table 1 below.

The community protection efforts of the Parole Board are reflected in a comparison of some of the characteristics of inmates granted and denied release at initial interviews. The comparison reveals that inmates who were denied release were more likely to have committed crimes involving the use of a weapon or the occurrence of an injury. Further, those who were denied release had more extensive prior records than inmates granted release. The effectiveness of the Parole Board's screening is demonstrated in greater detail in the table to follow:

PAROLE OPERATIONS

Institutional Parole

The Parole Officer assigned to an institution plays a critical role in the inmate's transition from institutional to community life. The IPO serves in a bridging capacity between the inmate and the community, the inmate and the field parole officer, and the inmate and the Parole Board.

The role of the Parole Officer with an institutional assignment includes an assessment of the needs of each inmate and encourages their participation in programming, during incarceration, which meets these needs. These Parole Officers conduct inmate group counseling sessions and Parole orientation classes for inmates. Additionally, they interview inmates, in advance of their Board release interviews, to gather information which is presented to the Board in summary reports together with recommendations as regards the granting or denial of parole release and the possible conditions of release.

After a parolee has been granted release, the Parole Officer continues to participate in Parole Board release planning through the Community Preparation Program. The Parole Officer provides the link between the institution and the community both through pre-release interviews conducted with inmates and through ongoing communication with the Field Area Office to which the parolee is to be released. These services are provided to both inmates who are released by decision of the Parole Board and to those conditionally released.

Finally, institutionally assigned Parole Officers continue to participate on correctional temporary release committees which grant temporary work release, furloughs and other leaves of absence for good cause to inmates. The Institutional staff is involved in committees within the state's correctional facilities that give support and advice to drug and alcohol programs.

Community Supervision of Parolees

Community supervision is at the heart of the Division's community protection mission. The Parole Officer with a field assignment is located in the community supervising offenders released from state correctional facilities. Community protection requires that Parole Officers adhere to strict supervision standards. Additionally, it is essential to ensure that parolees comply with the terms and conditions of release. When the conditions of release are violated, the Parole Officer must take appropriate action.

Presence in the community allows the Parole Officer to become familiar with the services and resources which the neighborhood contains. Through their familiarity with the surrounding community, the officer can expedite the reintegration of the offender by linking offenders with particular needs to relevant services.

Beginning in FY 85-86, the Division implemented Differential Supervision which was a unique approach to community supervision caseload management. The concept targets resources on parolees with the highest levels of need for surveillance and social services in an attempt to meet the agency's goals of community protection and parolee reintegration. Allocation of these resources is based on a model of risk management under which newly released parolees are placed on Intensive caseloads which require extensive contact standards and reduced caseload size. After 15 months parolees are moved to larger, Regular caseloads when their potential threat to the community and level of service needs have been reduced.

There were 34,519 individuals under community parole supervision during fiscal year 1986-87, as reflected in Table 3. This represented an increase of 5% over the previous year's figure of 32,822. Parole Board releases from state correctional facilities increased from 10,632 during fiscal 1985-86 to 11,445 during fiscal 1986-87. Parole Board release practices, as reflected by the median time-served statistics, have remained very consistent over the years.

[A/] These individuals were actually released from state prison during the given fiscal year. The total number of releasees should not be confused with the number of inmates granted release by the Parole Board during the same year. Release interviews are done two months in advance, so that the number of actual releases is usually less than the number of inmates granted release by the end of a year. Moreover, inmates granted release in March, which is the close of the fiscal year, would be counted as releasees in the new fiscal year.

[B/] This includes cases released to supervision both within and out-of- state.

[C/] Removals include parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.

[D/] Dynamic population is the cumulative number of parolees under supervision during all or any part of the year.

[E/] Delinquents are those parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in the violation process will have their parole revoked.

Outcome of Parole Supervision

The primary goals of the Division of Parole are to assist offenders released from correctional institutions to adjust to community life, and to provide community protection by preventing these individuals from re-engaging in criminal behaviors.

Parole Officers carry out these goals by supervising parolees in the community, coordinating the delivery of available social services, and helping to motivate and guide the parolees towards a more positive lifestyle. However, one must realize that not all persons will abide by their conditions of release. The Division must, therefore, fulfill the goal of community protection by returning a violator to prison.

A violation of parole occurs when an individual under supervision violates the conditions of parole in an important respect. These conditions are agreed to in writing by an inmate upon release from prison to community parole supervision. They stipulate, for example, that if the releasee absconds from supervision or re-engages in criminal activity, his/her parole is subject to revocation. The individual may consequently be returned to prison following a series of due process hearings.

In the 1986-87 period, 13% of all parolees under supervision during the year were returned to prison by the courts for committing new crimes or by the Parole Board for violating the rules of parole (e.g., absconding, or illegal use of drugs). Table 4 provides a more detailed analysis of the parole success rate.

Table 4:
Outcome of Parole Supervision

Outcome Measure	1985-1986 A/	1986-1987 B/
Rate of Parolees Returned to Prison with New Court Conviction During Year	4% (N=1,452)	4% (N=1,298)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	8% (N=2,780)	10% (N=3,299)
Total Rate of Prison-Returns During Year	13% (N=4,323)	13% (N=4,597)

A/ Rates computed on basis of dynamic population of 32,822 parolees during April 1, 1985 through March 31, 1986.

B/ Rates computed on basis of dynamic population of 34,519 parolees during April 1, 1986 through March 31, 1987.

In view of the data in Table 4, the parole success rate can be measured in several different ways.

In terms of total number of parolees not returned to prison, the success rate was 87% in 1985-86 and 1986-87. This result is an indication of the Division's overall performance in deterring parolee crime and reincarceration.

From the point of view of enforcing the rules of parole, parolees returned to prison for rule violations cannot really be considered "failures" in the same sense as those who were returned for new criminal convictions. For example, absconding from supervision is less serious than committing a violent offense. But, more importantly, a prison return based on a rule violation decreases the chances of a parolee being a threat to community safety. Given this, the success rate was actually 96% for fiscal year 1985-86 and 1986-87.

Using the most rigorous definition of success, those parolees in an active reporting status, the success for 1985-86 was 74%; in 1986-87 it was 73%. This measure excludes parolees in either an incarcerative or absconder status. It is important to note that not all of these incarcerated or absconder parolees will have their parole revoked or even enter the violation process.

STATE OF NEW YORK
EXECUTIVE DEPARTMENT

CRIME VICTIMS BOARD

The Crime Victims Board (CVB) was established August 1, 1966 to provide monetary compensation to eligible crime victims. Since 1966 numerous legislative enactments have expanded eligibility and award criteria which have enabled the CVB to provide a wide array of assistance to crime victims and witnesses.

By statute the CVB is mandated as a "payer of last resort". Compensation able to be provided to crime victims, not necessarily physically injured, includes but is not limited to awards: unlimited reimbursed medical expenses including necessary counseling expenses for victims and appropriate family members; unreimbursed loss of earnings/support up to a weekly maximum of $400 until an aggregate of $30,000 is reached; unreimbursed funeral expenses to a maximum of $2,500; the cost to repair or replace items of essential personal property up to $500; unreimbursed occupational or vocational rehabilitative needs; the cost of residing at and utilizing services of a domestic violence shelter; and lastly, the payment of reasonable attorney's fees up to $1,000.

In fiscal year 1986-87 the CVB witnessed a dramatic increase in claims filed by crime victims attributable to two main factors: 1) the enactment of Chapter 688, Laws of 1985 which made significant enhancements to eligibility and award criteria; and, 2) a New York City-wide police notification program which provided information on the existence of and benefits available from the CVB. In fiscal year 1987-88, the increase in claims filed by crime victims was at a rate consistent with other increases experienced before Chapter 688 became effective.
